Members of the Austin Genealogical Society have many reasons to be proud of their associates and their organization! The AGS has made continuous progress because of the work of its members -- one of the finest, most cooperative groups of working amateur and professional genealogists I have ever met. They are continually developing new ideas, and assisting beginning genealogists.

The AGS Quarterly under the dedicated, hard-working editors, with the cooperation of the members, has earned a real place among contemporary publications. The program for the year, planned by Mrs. David C. Gracy, is one that keeps members and guests interested -- and talking after the meetings until long past time to close the Howson Branch Library, where we are privileged to meet. Through the efforts of many, with AGS members as sparkplugs, a better and more advantageous working situation exists in the Austin, Catholic, University and State libraries and archives. The people of Texas are grateful to the administrators and workers in these places of service to the public. We salute them!

With the harmonious support of the members, and fine cooperation of Mr. Richard F. Brown of the American-Statesman, we have a column, "Your Family and Mine," which has now appeared for two years. The Houston Post and the San Antonio Light have columns; and genealogical societies in other Texas cities are pushing for columns in their local newspapers. We wish them luck, and continued progress!

Several members have given of their time to talk to historical and patriotic societies and civic groups. More workshops and other promotion will follow as Austin continues to advance its over-all plans. Our members handle almost every problem from advice to beginners to publishing books. I salute you -- the members -- on your accomplishments, individually and as a society! The 1965 Texas State Society convention in Austin later this year will be a further test of the abilities of all. I predict a great meeting, typical of the AGS!

Sincerely,

/s/ Ralph E. Pearson
1965 Summer Quarterly

Family Bible Records will be featured in the Summer Quarterly in 1965. Please keep this in mind when you visit relatives this spring; so that you can make copies of the birth, death and marriage data in the old Family Bibles. If any of your neighbors, or any people you meet on your trips, have an old Family Bible, please make a copy of the genealogical data and send it to the Quarterly Editor. When publishing these Family Bible Records, it is desirable to give the name and principal residences of the original owner who made most of the entries, the name and address of the person now in possession, and your name. It is very important to record the data from these old Family Bibles this year; as they might be lost, burned or discarded by this time next year. Deadline for material for this issue will be 30 June 1965.

1965 Fall Quarterly

Cemetery records will be featured in the Fall Quarterly in 1965, just as in 1964. Right now, while the weather is still cool and clear, and before the underbrush has grown too thick, is the time to copy the inscriptions from that old cemetery you've been meaning to do. In many instances, these are the only records on a person in a locality, when he has moved to the area between censuses, and where there have been no marriages or land sales in the family. Please give the location of the cemetery, including highway directions to reach it, and comment on its general condition.

1965 Winter Quarterly

A complete index of the Austin Genealogical Society Quarterly, from 1960 through 1965, will make up the Winter Quarterly for 1965. This will make our Quarterly a more useful reference for genealogists and historians.

1966 Spring Quarterly

The Spring 1966 Quarterly will again contain the annual Ancestor Registry, just as it has for the last 5 years. Complete instructions appear on the last page of this issue, with a copy of the Family Data Sheet. The new Editor will appreciate your sending in the Data Sheets throughout the year; so that the Spring Quarterly will not be such an arduous task to prepare. This is an excellent opportunity for you to publish the data you have, plus the information that you need, and to bring them to the attention of thousands all over the country.

New Books Acquired under Matching-Purchase Program

Since publication of the Winter 1964 Quarterly, the following books have been acquired under our Matching-Purchase Program: "The SHELBY Family -- A Historical Genealogy"; "Descendants of East Tennessee Pioneers"; "Abstracts of Early Records of Nash County, North Carolina, 1777-1859"; and "Pioneer Families of Franklin County, Virginia".

Back Issues of Quarterly Available

Extra copies of each issue of the Quarterly are still available, although stocks on some numbers are getting low. All issues prior to 1964 are 50 cents each; the large Spring and Fall issues of 1964 are $1.00 each. Please make checks payable to the Austin Genealogical Society, and send orders to the Editor.
The information on each individual in this year's Ancestor Registry was furnished by the member on a Family Data Sheet. After the data were extracted onto 3" x 5" index cards, the data sheets were returned to the members. As errors are found, or as new information is obtained, the member should correct the Family Data Sheet on the individual and forward it to the Editor for inclusion in the Spring 1966 Quarterly. In addition, a Family Data Sheet should be prepared on each additional ancestor who has not appeared in the Ancestor Registry. These data sheets should be forwarded to the Editor throughout the year so that the work of preparing the Spring Quarterly can be spread out through the entire year.

ABEEL, Christopher Jannse (Stoffel Jans)(son of .......... ABEEL & .......... ..........): b. (when--1621/23) in Amsterdam, Netherlands -- d. (when--in 1699) in New Amsterdam (later New York), N. INSTRUCTIONS:
1. Make a separate Data Sheet for each marriage of the ancestor on this page, and enter in short blank following word, "married", whether the marriage on this page was his 1st, 2nd, 3rd, or which, only if he was married more than once.
2. Make a separate Data Sheet for each marriage of the ancestress on this page, if she was married more than once.
Many members found it difficult this year to prepare their Family Data Sheets in time to get their data published in the Spring Quarterly. These instructions, and the copy of the Data Sheet on the other side of this sheet, are presented in an effort to assist these members in getting their material prepared in time for the 1966 Spring issue. This Data Sheet can be copied on any typewriter or copier; and the printed forms can be purchased through the Treasurer, the Secretary or the Editor.

Each member may submit as many as 20 new Data Sheets for the 1966 Spring Quarterly; these should include information on 40 individuals (husbands and wives). As in the 1964 and 1965 Spring quarterlies, the 1966 Ancestor Registry will index all ancestors and ancestresses by surname.

Corrected Data Sheets on individuals who have appeared in earlier issues of the Spring Quarterly will not count in the 20 new Data Sheets for the 1966 issue. You should prepare new Data Sheets on any individuals on whom you have obtained new or corrected information since publication of their data in the earlier Spring Quarterly.

Deadline for receipt by the Editor of Data Sheets for inclusion in the 1966 Spring Quarterly is 15 February 1966; therefore you have plenty of time to prepare the Data Sheets and get them to the Editor before that time. The editorial staff must type the information on each Data Sheet onto 3" x 5" index cards; and the earlier you can send in your Data Sheets, the sooner the index cards can be typed up. This will eliminate the last minute rush evident the last two years; and the editorial staff will be most grateful for the additional time. Your data sheets will be returned to you.

Special Instructions:

1. Please type or print all entries on the Data Sheets. Handwriting is sometimes difficult to read; and this leads to unnecessary errors in the Quarterly.
2. All SURNAMES are to be in all capital letters; each Given Name has only the initial letter in capital, with the other letters in lower case.
3. Use Maiden SURNAME for a woman, not her husband's SURNAME.
4. Each date, (when), should be as complete as possible, with day given first, month spelled out, and year. (Example: 25 January 1944).
5. Each place, (where), should be as complete as possible, and should include township, county or parish.
6. Children's names should be as complete as possible, and listed in order of birth; continue on back of Data Sheet if you run out of room on the front.
7. Please underline the name of the child in your lineage.
8. Any additional data or explanation you wish to add for clarification should be placed on the back of the Data Sheet.
9. Make a separate Data Sheet for each marriage of the ancestor on this page, and enter in short blank following the word, "married", whether the marriage on this page was his 1st, 2nd, 3rd, or which, only if he was married more than once.
10. Make a separate Data Sheet for each marriage of the ancestress on this page, if she was married more than once.

This is an excellent opportunity for you to publish your lineages, to help out others who are collateral kinsmen, and to bring to the attention of thousands of genealogists all over the country the lines on which your information is incomplete. Each year that our Ancestor Registry is published makes our Quarterly a better reference.
